

MXDR 365

Introducing Patriot's 24x7x365 Managed Extended Detection & Response Services built upon Microsoft Sentinel.

Ransomware attacks **grew over 100%** over the past year, and the tactics are becoming more sophisticated. No organization is immune.

MXDR365 includes people, process, and technology to protect, detect and respond by isolating endpoints and users when necessary.

How does MXDR365 Protect Your Organization?

Our 24/7/365 managed security operations center (SOC) services include:

-  Full deployment of Sentinel (SIEM) and M365 Defender Suite
-  Integration of all log sources: Endpoint, Server, Firewall, & Cloud
-  Expert SOC Analysts Monitoring 24x7x365
-  Threat Intelligence and Threat Hunting
-  Automation (SOAR)
-  Active Response & Isolation

WHY MXDR 365?

Organizations lack budget or in-house security resources to manage alerts or are seeking deeper detection expertise.

LACK OF EXPERTISE AND BUDGET

Operating your own 24/7 SOC is expensive! Retaining them is even harder! MXDR365 is 8x less expensive than operating your own soc.

ALERT FATIGUE

Does your IT Team have deep security investigation experience to detect and respond to attacks? Can they do it 24/7?

STAFFING CHALLENGES

MXDR365 solves SOC staffing challenges by not only triaging alerts, but also actively responding and remediating threats in your environment.

The Patriot Difference

-  Patriot Consulting Technology Group is one of the top Microsoft Partners in the United States.
-  MXDR365 is designed with a passion to help and benefit several charitable causes. A portion of profits generated from all engagements will be donated to philanthropic causes.
-  Advanced Automation & AI: Reduces the latency in responsiveness and improves the accuracy of the initial triage decisions, and automates the response capabilities.
-  MSFT Threat Intelligence
-  Best Price / Performance in the market for SIEM and SOAR.
-  Migration Specialist from other SIEM and SOAR products like QRadar, Splunk and others.
-  Specialists in providing Cyber Security to Mid and Small Size companies.
